RECIPE

Ingredients:

250g flour

110g water

40g sourdough starter

6g sea salt

80g vegan yoghurt coconutcollab

A splash of olive oil

Vegan butter

Instructions:

1. Mix all the ingredients in a bowl until well combined.
2. Let the dough rest for 1 hour, then perform a quick stretch and coil fold.
3. Place the dough back in the bowl, cover, and let it rest for 1-3 hours.
4. Divide the dough into balls, then transfer to the fridge to ferment overnight.
5. The next day, take the dough out 4 hours before baking to bring it to room temperature.
6. Stretch and bake the naans on a hot skillet or in a @gozney oven. Brush them with Vegan melted butter with parsley and you can also add garlic.

Super easy to make, and the naan was extremely soft and delicious melting in your mouth... Epic!
