Sourdough Croissants 🥐

Stiff levain ingredients

15 gr sourdough (very active)
45 gr flour
20 ml water
10 gr sugar
After 8-12 hours, when the stiff levain rises by 1.5 times, you can knead the main dough

Dough Ingredients

All stiff levain
220 gr flour
110 ml water
5 gr salt
30 gr sugar
25 gr butter

Day 1

Midday feed your sourdough starter and make the stiff levain in the evening.

Day 2

Make your dough after 3 to 6 hours (until doubled in size) put it in the fridge for overnight

Day 3

Encase butter in dough, roll and fold after one hour repeat the procedure.130 g of butter will be needed for lamination, after shaping the croissant,the final proofing time takes about 5-8 hours. Bake for 20 minutes at 190C /375F degrees.
